

**Riverbay Service Update, April 6, 2020**

This is an important Bay Plaza test site transportation message for residents of Co-op City.

The Bronx Clergy Task Force has advised us that due to limited amounts of PPEs and the inability of fully ensure the safety of their drivers, they will have to suspend their free transportation option to the testing site in Bay Plaza.

We thank the Bronx Clergy Task Force for stepping up to assist the Co-op City community and regret that current circumstances would not allow them to continue.

Please stay safe.
